

CLEANER CL-94

DESCRIPTION

CL-94 Ion Exchange Resin Cleaner is a concentrated liquid product for cleaning cation exchange resins. This product is effective for cleaning both inorganic zeolites and resin type ion exchange beds. CL-94 is a chelating-type cleaner, which will remove iron and other inorganic cations from fouled resin surfaces. In normal use, CL-94 is noncorrosive to softener tanks and piping.

APPLICATION

CL-94 is intended for use as a soak-type cleaner for iron fouled cation resin beds. This product can also be added to the regenerant brine as part of a preventative maintenance procedure. For additional information, refer to Aqua-Service Bulletin #7.

PHYSICAL DATA

Color & Form Colorless liquid
Specific Gravity..... 1.116
Product pH..... 6.2
Density..... 9.31 lbs./gal.
Odor..... Odorless

DOSAGE & FEEDING

Procedure for using CL-94 is provided in Service Bulletin #7.
